

# SHIVAM SAHRAY

FULL STACK DEVELOPER

## OBJECTIVE

A dynamic Full Stack Developer with a strong foundation in both front-end and back-end technologies, skilled in building scalable, high-performance applications. Leverages expertise in modern frameworks and tools to deliver innovative solutions that drive business success.

## EXPERIENCE

### FULL STACK DEVELOPER INTERN

Aug 2025 – Dec 2025

- Developed and maintained the **Leads and Super Admin modules** of a CRM system, ensuring smooth management of client and employee data.
- Implemented **Excel import/export functionality** to efficiently manage and organize leads data.
- Automated **email-based lead generation and notifications**, including converting incoming emails into leads and sending alerts to assigned employees.

## PROJECTS

### MEDDIUM- A BLOGGING WEBSITE

- Developed a full-stack blogging platform (Medium clone) using **React, Node.js, Express, and PostgreSQL**, enabling users to perform full **CRUD operations** seamlessly.
- Optimized frontend performance and responsiveness, ensuring cross-browser compatibility, smooth navigation, and a **20% increase in user engagement** across devices.
- Implemented RESTful APIs and CI/CD pipelines to enable efficient backend operations, **30% faster response times**, and zero-downtime deployments for continuous updates.
- GitHub- [Link](#), Live Preview- [Link](#)

### Whatsy Real-Time Chat Messenger

- Developed a real-time messaging application using the **MERN** stack (MongoDB, Express, React, Node.js) and **Socket.io**, enabling instantaneous communication with sub-100ms latency.
- Implemented secure **JWT-based authentication and end-to-end data flow**, ensuring private and protected user sessions.
- Designed a responsive and modern UI using **Tailwind CSS**, featuring real-time online/offline status indicators and message history persistence.
- Integrated **Cloudinary** for seamless media sharing and utilized **Zustand** for efficient global state management across the application.
